

## Deposits of Claim Payments

In order for us to ensure the safe and prompt deposit of checks received in our office as payment for your ambulance transport services, we request that you provide us with a deposit book(s) and endorsement stamp for your account with a bank that has a branch in Silverdale so that we can hand-carry your deposits directly to the bank. We will have "deposit only" access to your account through your endorsement stamp and can notify you, and anyone else you designate, of any deposits made the same day that they are deposited.

Since many of our local banks are branches of large, national chains, we are confident that you can find a bank in your area from the list below. If you should be unable to find one of these banks in your area, please call to discuss other options for how we should route your claim payments.
